REQUEST

Dr. Anna Krebsz
Vice-Dean for Education

Subject: Request to change thesis title

Honorable Vice-Dean for Education,

As part of the Intelligent Field Robotics Systems (IFROS) master's program, I am currently working on my thesis titled *LiDAR-Based Mapping Module for Autonomous Navigation*.

I would like to request a change in the title of my thesis to *Globally Consistent Mapping for Indoor and Outdoor Environments Using Hybrid LiDAR SLAM*. The main reason for this change is that the original title is too generic and does not accurately reflect the specific focus of my work. After discussing with my supervisors, we agreed that the new title better captures the scope and objectives of my thesis.

I hereby kindly request your approval for this title change.

Place, date: 11/04/2025

Yours sincerely,

signature

Subject: Thesis title chagne

Hi Professor,

I spoke with Reka regarding the change of my thesis title, and she mentioned that she would need your written support for the change, including your signature.

Alternatively, if it's more convenient, you could send me an email (zewdiehabtie26@gmail.com) confirming your approval of the new title, which I can then forward to Reka. In that case, she requested that the email be sent from your official ELTE account.

Thank you in advance for your support.
